## COMMAND PHILOSOPHY

**Mission First.** *We are engaged every day in a war for talented people who will become our Navy's greatest asset - its Sailors.*

**People Focus.** *Take care of yourself, your family and your people. This begins with each of us individually - but takes a team to be successful.*

**Learn Constantly.** *We must be a learning organization - one that improves through constant qualification, quality education and training, thoughtful analysis and rigorous assessment.*

**Integrity Always.** *Be first with the truth and never compromise standards. Trust depends on integrity and is the foundation for our belief in the chain of command, ourselves, our shipmates and our mission. Trust is our currency.*
